Dear Mr. Flaherty:

RE: Granville Street Downtown Site Furnishings

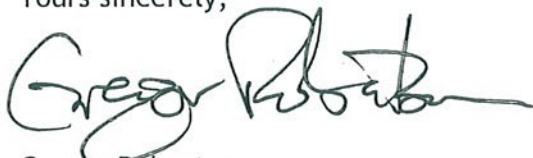

A belated but a most sincere thank you to the staff of FairWeather Site Furnishings for your contributions to furnish Granville Street Downtown ahead of the 2010 Winter Olympic and Paralympic Games.

The City of Vancouver hosted hundreds of thousands of visitors from across the globe and Granville Street is where many chose to gather and celebrate in the spirit of the Games. Be proud that your contributions to the street will be engrained in the memories of all those people as part of their Vancouver Olympic experience. Furthermore, the improvements have re-established Granville Street as one of the Great Streets of the City and its custom furnishings will be enjoyed by the citizens of the City for generations to come. The high quality finishing and attention to detail for the bike racks, metal chairs and benches have garnered many compliments. The benches on Granville Street, in particular, became impromptu trading posts for eager pin-traders throughout the Games.

FairWeather did a fantastic job at producing custom furniture that was true to the original designs and produced to meet an aggressive timeline.

Congratulations on a job well done!

Yours sincerely,

Gregor Robertson
